

## Thumb Tip Effect System by Menzi Magic & Zhao Xinyi

Every magician dreams of mastering magic like sparks dancing at their fingertips. Now, you can have it. Just roll up your sleeves-no need to wear anything on your wrists. It's exactly as you've always imagined.

You can also use it to achieve a very clean Invisible Cigarette effect.

Like every other product in the special effects system line, it features three modes: smoke, fire, and flash, allowing it to be integrated into nearly any close-up or parlor magic performance.

- Some Applications
- Shoot
- Invisible Cigarette
- Cut and Restored Ribbon

And more...

It features a built-in charging management module and can be charged directly using any 5v Type-C cable (the red light indicates charging in progress, while the green light signals a full charge).

Includes:

- 1 x TTES
- 1 x instructional video card
- 3 x Special Thumb Tip
