

Postcard by Marco Markiewicz

POSTCARD

revolutionizes mentalism by abandoning classic playing cards... and replacing them with real postcards!

Before anything even begins, a prediction is placed in full view.

You then display 8 postcards, each featuring a different country. They are freely mixed and placed face down on the table.

A spectator chooses one with absolutely no force.

To eliminate any possibility of a switch, the spectator personally signs the selected postcard.

The cards are gathered...

Suspense.

You reveal the chosen postcard along with your prediction.

They match perfectly!

Same country. Same image. Impossible.

- No force - completely free choice
- Signed postcard - no possibility of a switch
- Reusable postcards
- Handmade gimmick included
