

Helix Case by Jeki Yoo - Buch

"**Helix Case**" is a powerful and visual opening effect from one of magic's most creative thinkers, Jeki Yoo.

Taking a nostalgic toy we all remember from our childhood and turning it into the perfect way to produce a deck of cards from nothing.

Here's what happens:

You begin by casually playing with a slinky. It is stretched, bounced, and openly displayed as empty. With the slinky resting in your palm, you give it a gentle shake, turn it over, and a complete deck of cards drops out from inside the coils. The deck can immediately be used for your next routine or handed to the audience for shuffling and examination.

Even though "**Helix Case**" is great for producing a deck of cards, you're not just limited to cards alone. Coins, candy, billets, or other small objects can be produced. If it fits inside the slinky, you can produce it.

"**Helix Case**" is designed to be used in the real world. It's very easy to perform, and the gimmick does almost all of the work for you. Perfect for close-up, table hopping, even parlor and stage performances.

"**Helix Case**" works with any standard-sized deck of cards.

Buy now and turn "Oh my" into "Oh mine!"
