

Nail Roulette X - Bühnentrick

Nail Roulette X reimagines a legendary effect with a clean, interactive design built for modern performance.

Spectators freely place the nail, cover it with a bag, and mix everything themselves.

The performer never touches the setup—yet confidently eliminates each bag until only one remains.

At the core is a magnetic sensing system, allowing the performer to accurately perceive the position of magnetically responsive objects without visual cues. Silent, reliable, and designed for real-world use.

Key Features

- Fully inspectable props

All components—bags, bases, and the nail—can be examined before and after the performance.

- Hands-off, spectator-controlled setup

The entire setup is handled by the audience, creating a fair and impossible presentation.

- Low-visual performance support

Perform while looking away, with eyes closed, or even blindfolded (with proper handling and responsibility).

- Multiple object options

Not limited to the nail. Works with magnet-equipped items such as eggs, coins, playing cards, banknotes, and more.

- High tension, safe impact

Creates a powerful “danger without danger” moment audiences won’t forget.

What’s Included

- Main gimmick unit
- Charging cable
- Custom nail
- Paper bags
- Magnet

- 4 walnut bases
- Carrying pouch

90-minute instructional video

Includes full handling, safety guidance, multiple routines, and real-world performance tips.
