

Crazy Sam's Finger Illusion by Sam Huang

A New Era in Finger Magic.

"I've never seen anything like this!" — Judges of America's Got Talent 2024 — He walked on stage with empty hands... and blew millions of minds worldwide on AGT. Now, Crazy Sam finally shares his most talked-about creation — Crazy Sam's Finger Illusion.

What Happens

Sam extends his pinky, asks a spectator to pull...POP! The finger detaches instantly! He reattaches it elsewhere, pulls it off completely, even separates his thumb from his palm — all in full view. Five phases of jaw-dropping impossibility.

Elite Hand-Painted Prop

High-end fake fingers are usually custom-made by prosthetic or SFX studios — costly and slow to produce. Sam's AGT finger alone cost \$500 USD — all for maximum realism.

With this set, you get the same professional standard, upgraded with:

- Memory-Bend Tech — Bend and hold any natural pose.
- Skin Tone Match — Natural look, adjustable with makeup.

Masterclass

Learn directly from Crazy Sam, as he breaks down his full 5-phase AGT routine, natural hand movements, plus pro tips to take your finger magic to the next level.

Bonus Effect

Includes Sam's first published magic effect, Ghost Hand — a crowd killer now revealed for the first time alongside Crazy Sam's Finger Illusion.

Features

- Close-Up Ready
- Fully Examinable
- 5 Shocking Phases
- Ultra-Realistic Prop
- Bonus: Ghost Hand

You Will Receive

- Hand-painted hyper-realistic finger × 1
