

Lift by Bond Lee, HZ Wang & MS Magic

Introducing **LIFT - Pure Mentalism**

The magician borrows four random everyday items from the audience - a wallet, phone, air pod, or any small object the spectator is carrying. All items are placed openly on the close-up pad.

The magician turns around, giving the spectator complete freedom to place the items one by one into their pocket in any order they choose.

Once finished, the magician turns back - and correctly reveals every single item that has been placed inside the spectator's pocket.

The effect is direct, shocking, and just like a real mentalist.

LIFT is 100% mechanical: no electronics, no magnets, no extra devices.

The spectator's choices are 100% free will at all times.

All items can be borrowed live from the audience - nothing is prepared or gimmicked.

The ultimate, practical tool for every professional mentalist and close-up performer.

- Four borrowed objects
- Audience places items freely
- Magician reveals every position
- 100% Free choice
- No electronics
- No magnets
- No trap doors
- Completely mechanical
- Ultimate tool for mentalists
