

## Aluminum Alloy Cups and Balls Set by TCC Magic

Cost-Effective Meets Exquisite Craftsmanship, Perfect for Beginners and Daily Practice, with a Tutorial by Michael Ammar!

Crafted from aluminum alloy, this set weighs roughly half that of a brass cup while still offering exceptional comfort. In use, it conveys the solid feel of genuine metal.

Our **Aluminum Alloy Cups and Balls Set** delivers the feel of a premium set at an accessible price. Whether you're just starting out or need a reliable backup for practice and performance, this set is designed to exceed expectations.

Crafted from aluminum alloy, the cups offer impressive texture and durability at a price that rivals basic models. Ideal for beginners seeking quality without overspending, or for professionals who want a dependable practice set.

Each cup is precision-machined with smooth curves, polished edges, and a lightly matte finish for a refined look and comfortable handling. From final loads to tosses and catches, every move feels seamless. The surface is ultrasonically cleaned, giving it a soft matte texture that enhances grip and appearance.

The set also includes a full routine tutorial taught by Michael Ammar, who shares the very routine he has performed for decades. (Note: The tutorial features the brass version of the cups, but the routine is the same for this set.)

### What's Included

- 3 aluminum cups
- 4 knitted red balls
- 1 black velvet bag
- Cups and Balls routine tutorial by Michael Ammar
