

## Graphite by Romuald Barbey

A pencil moves, then rises in your bare hand. Magic in its purest form.

Telekinesis with no thread, no magnets, no electronics, no moving parts.

The secret is inside the pencil.

For years, Romuald Barbey has been performing **GRAPHITE**, and today he finally shares it with you - in collaboration with Dual Magic.

Organic magic that fits in your pocket.

Perform it as a standalone miracle or integrate it into a full pencil routine.

**GRAPHITE** is built to last and can live in your pocket all day long, ready for your everyday life and your professional gigs.
