Teamed up with David Jonathan and Nikolas Mavresis to bring you this incredible effect!

"**This or That**" isn't just a popular social game. It's now a powerful routine with a premise everyone can relate to!

You introduce a fun, fast-paced social card game called "This or That", where personal preferences are put to the test.

So which do you prefer? Pizza or burgers? Video games or board games? Day or night? Summer or winter? Pool or beach? Cats or dogs?

Your participant freely answers each question however they like. Once they're done choosing from the blue set of cards, you bring out an identical red set: the one you prepared earlier.

Incredibly, your choices perfectly match every single one of theirs. A flawless prediction!

And that's not all: there's also an alternate bonus routine with a surprising kicker ending you'll absolutely love.

The cards are made from premium PVC material, offering excellent quality and long-lasting durability. With a sleek design and engaging premise, This or That is far from a typical card trick. It's interactive, modern, and impossible to forget.

No sleight of hand, no Rough & Smooth, no learning curve. Just pure fun and powerful magic.
