

Vermilion Bird Black Gold Box Set by Ark - Pokerdeck

The pure gold and silver contrast with the black and gold box, giving the set a significant boost in terms of visual effect.

Unlike metallic ink, full foiling is a much more advanced process. The metallic luster extends to the corners and edges of the cards. Such luxurious details portray the bold and unconstrained pinnacle of creativity.

- Limited to 500 with unique serial numbers
- Two decks: gold & silver
- Full gold and silver foil playing cards
