

PITATA Carrying Case

When you own and use multiple PITATA devices, keeping them organized, protected, and easy to transport is essential.

After researching various storage options on the market, we decided to create the PITATA Carrying Case - a high-quality storage solution designed specifically for PITATA products.

The **PITATA Carrying Case** features two large compartments, perfect for holding larger devices like the PITATA Smart Whiteboard and Clipboard. At the center, you'll find a two-sided multi-functional storage panel:

One side has elastic straps for securing pens, notepads, and other small items, while the other side has a zippered pocket for chargers and other accessories.

Despite its generous storage capacity, the case maintains a slim profile, measuring approximately 12.2 x 8.3 x 1.2 inches (31 x 21 x 3 cm), making it ideal for travel or everyday use.

Custom-Fit & Tech-Inspired Look:

The exterior is crafted from premium EVA in a sleek Moon White Color, blending modern style with durable protection. The sturdy zippers and precisely designed interior ensure long-lasting performance while keeping your devices safe and organized.

Whether you need to carry two clipboard-sized devices (E.g. One Gimmicked and 1 regular), a PITATA Smart Memopad, PITATA Watch, or accessories, the **PITATA Carrying Case** is all you need- all in one compact, stylish package.

Dimensions:

12.2 x 8.3 x 1.2 inches (31 x 21 x 3 cm)
