

Jumbox Koran Deck (Red) by Magic Dream - Markiertes Kartenspiel

In 2010, Magic Dream made waves in the magic community by releasing **The Ultimate Marked Deck (UMD)**. It quickly became a global hit, earning its place as an international best-seller and living up to its name. The UMD received glowing endorsements from renowned magicians like Gaetan Bloom, Darwin Ortiz, Chris Kenner, Juan Mayoral, Robert Giobbe, and more. Now, twelve years later, Magic Dream is back with its latest innovation: the JUMBOX® series of jumbo cards.

The **Magic Dream JUMBOX® line** was created to meet the demand for high-quality, gaffed jumbo cards. These are more than just oversized playing cards - they're essential visual tools for magicians and mentalists who understand the impact of bold, striking imagery.

Designed with Magic Dream's exclusive **Grand B Back** and crafted by the talented **Jean-Charles Briand** (known for Bicycle Fast'N'Genious, Bicycle Paris Back, Bicycle Angels, and more), this jumbo deck lets you identify a card's value and suit in less than a second from nearly a meter away! Imagine the amazement on your spectators' faces when you effortlessly determine the cards they're holding from such a distance. Don't worry - the markings are more covert than a secret agent, and placed on all four corners. While they'll be crystal clear to you, they'll remain completely undetectable to your audience. With the **Jumbox® Marked Deck**, you'll perform truly mind-blowing magic and mentalism.

To achieve this, Magic Dream spent months searching for a specialized printing company capable of meeting their strict standards. The result? A deck made from the finest materials, ensuring smooth handling, vibrant colors, and exceptional quality. They even resized the cards proportionally, so each Jumbox® card is equivalent to four standard poker cards (two in length and two in width).

Specifications:

- Size: 7 inches tall by 5 ¼ inches wide (17.5 cm x 12.7 cm).
