

Bicycle Johnny the Monkey - Pokerdeck

Step into the world of **Johnny the Monkey**, the second mascot of a new lineage of collectible decks. Designed for those seeking to intrigue from the very first glance, this deck breaks away from the monotony of standard Bicycles to impose a singular visual identity. The alliance between the sleek sobriety of Bicycle cards and Johnny's mischievous gaze creates a tool that is both robust and enigmatic.

For magicians, Johnny is more than just an illustration: he is a silent accomplice capable of misdirecting attention! His design offers narrative potential, ideal for leaving a lasting impression during close-up performances. Collectors, meanwhile, will immediately identify this deck as the starting point of a much broader quest.

This second chapter strengthens a series of animals whose silhouettes continue to mysteriously reveal themselves. After Gino the Croco, letting **Johnny the Monkey** join your hands is the next step in assembling a collection destined to become a reference.
