

Mr. Black V1 (Black) - Pokerdeck

The exclusive playing cards of Chinese celebrity magician Mr. Black, available in red and black versions.

The design cleverly combines the Chinese character with star motifs, forming a symmetrical emblem that aligns vertically and horizontally. Overlaid geometric lines create a mysterious, dynamic stage visual and enrich the performance experience.

The classic card layout ensures quick recognition and is perfectly suited for professional magic routines.

The Joker features a personalized design, inspired by the classic sleight-of-hand dove production. A genius hand that commands everything is surrounded by multiple wings. The dove is not fully depicted, symbolizing breakthrough, flight, and infinite possibilities.
