

On Top (Blue) by Marco Markiewicz

A new version of the AMBITIOUS card

Marco Markiewicz reveals his personal take on the Ambitious Card, an effect he has refined and performed for years with consistent success among audiences.

Have a card freely selected, then ask the spectator to sign it, making it completely unique. Place it face down back into the center of the deck... Spread the cards: there's no doubt, it's truly lost in the middle.

And yet... with a simple gesture, in a split second, one card rises to the top of the deck. Suspense.

Turn it over immediately: it's the spectator's signed card, returned to the top right before their eyes, just like magic!
