

COBAG by Marcos Cruz

COBAG

is a versatile and reliable magic bag. This single accessory allows you to perform two essential stage magic routines: The Miser's Dream and The Bag and the Egg, with clean transitions and natural handling in front of an audience.

Its practical design facilitates a fluid presentation, focused on the effect, not the method. COBAG integrates easily into any show, whether for children, families, or theater audiences, making it the ideal tool for timeless, proven routines that never go out of style.

Two classic routines. One bag.

COBAG is simplicity, functionality, and impactful magic.
