

Hung, Drawn, & Quartered Reimagined by Joel Anthony

Introducing **Hung, Drawn & Quartered: Reimagined**

An Organic Miracle. Always Ready.

The most powerful magic happens with objects your audience already trusts. **Hung, Drawn & Quartered: Reimagined** takes an everyday item-your house keys-and transforms it into an impossible miracle that happens inches from your spectator's face.

Routines

Joel has developed 4 visual routines that elevate this from a simple reveal to a visual masterpiece:

- **Confabulation:** A fantastic confabulation routine for the mentalists out there. Use your very own business cards and have a prediction ready and pierced on your keyring that matches the spectators word or picture.
- **Chicago, Drawn & Quartered:** Joel's take on the Chicago style opener, where the back of the signed card changes color before turning completely blank and their card appearing on your keyring.
- **The Original:** Perform Joel's original Hung, Drawn & Quartered routine where the signed card is pierced on your keyring and ripped off to be handed out.
- **Color Changes:** Show a prediction on your keyring that is the wrong color card/different back design. Wave your hand over, change the card to match the deck and rip it off to show your spectator's signed card.
