

Devilish Coin Across

Experience an astonishing coin routine that will leave even the pros speechless. Using three quarters and a coin-dollar (not provided), you will amaze spectators as a quarter invisibly travels between hands three times-no shells, no lapping, just easy diabolical sleight of hand (beginners level), the secret props, and instructions.

Everything is 100% examinable before, during, and after the routine. Hand the coins out freely, show your hands empty, there is nothing to find or hide. You can even borrow the coins.

Yours for just \$19.95.

This is what the pros are saying:

"Joe's Devilish Coin Across is clean, direct, and baffling. If you do coin magic, I highly recommend you add this routine to your program."

- **Mike Spade, WTF Magic Shop (YouTube) review**

"Now I see why they call it 'Devilish Coins Across.' Joe Hernandez has transformed a classic into pure magic. Every move is deliberate and seamless. Suspense builds until the final reveal when the last coin impossibly appears in the spectator's hand. I was genuinely stunned and completely fooled. If you want a coin routine that is fun and full of surprises, this one deserves a place in your repertoire."

- **Kevin Bethea**

"This is quite a little gem that you will love performing and is totally fooling. I cannot stop playing with it."

- **Will Fern**

"Devilish Coins Across is a very clever routine. It is a well-structured version of coins across, easy in execution, and powerful in effect!"

- **Harrison Carroll**

"With Joe's devilish coins across, the magic is pure temptation. Coins disappear one by one, pulled by an unseen force. It takes a brilliant mind-or a devilish one--to conceive something so simple yet so wickedly effective."

- Joe Devlin

"I have been a huge fan of Joe Hernandez magic for quite a while. His latest release, Devilish Coins Across did not disappoint. It is practical, very visual and it is a fresh take on a classic. Highly recommended!"

- Ken McCreedy

"Joe Hernandez's new coin effect fooled me not once, not twice, but three times! A devilishly clever method and handling. I can't wait to perform it for someone!!"

- Charles Del Rosso
