You are in complete control. Create a small, subtle spark with a light tap... or unleash a massive, dramatic shower by holding the button down. In an instant, it looks like you're cutting through solid metal - loud, visual, and absolutely shocking.

### CREATED WITH A GENIUS ENGINEER

SHINING was developed in collaboration with Efimov Flash, whose engineering brilliance shaped the core mechanics, combined with real-world refinements from working performers. The result is a reliable, durable, and show-ready tool - built by performers, for performers.

### EYE-CATCHING & UNFORGETTABLE

Walk into any event, pick up any object, and start "cutting" - instantly, all eyes are on you. Phones come out, cameras start rolling, and you become the most talked-about performer in the room.
