

My Hero By Ma Arif & Esya G

"It's a good idea!"

-LES FRENCH TWINS-

"An good revelation using barcode & Super heroes"

-RIZKI NANDA-

Introducing **MY HERO** by Ma Arif and Esya G

The clever QR barcode prediction!

This is a fun, modern mentalism show that will amaze audiences.

On borrowed spectators' phones!

With 5 fascinating superhero cards and just one envelope with a QR barcode,

None of them are covered or swapped.

Here's What Happens:

1. The magician show the envelope with the QR barcode and reveals 5 superhero cards from inside.
2. The spectator is free to choose any superhero card they like. No forcing and no magician choices
3. Instruct the spectator to scan the barcode on the envelope, and "That's crazy!" The prediction is 100% accurate based on the spectator's choice.

All you need to perform is any smartphone (Android or iPhone).

It's the kind of effect you'll love performing: simple, direct, and utterly mind-blowing every single time!

The Transformers card chosen by the spectator rises to the top, unlike the others.

Get ready from zero to **MY HERO** is your new favorite fun prediction!
