

Professional Jumbo Shells by Chef Anton and Pop Haydn

Chef Anton and Pop Haydn have created this incredible new version of the classic swindle that everyone knows and loves! Now you can perform it on stage, on the street, at trade shows, parlor and other venues where before it was not possible!

These beautiful, hand-painted, virtually indestructible hard resin shells perform the traditional shell game with a hard, 1 3/4" pea, and yet the effect is all mechanical - there's no sleight-of-hand required. That's correct - it's practically self-working!

- Three jumbo shells measuring an incredible 8"x6" and 2 1/2" deep!
- Includes four 1 3/4" peas (you can purchase additional peas separately)
- Includes a DVD of Chef Anton and Whit Haydn's audience-tested routine and advanced handling tips!
- Exact patten used in Chef Anton's trade show act for years
- Large enough to load your company's premiums or products
- Great visual prop for promotional photos

Not only do the **Professional Trade Show Shells** play great from a distance, they are an extremely attractive, eye-catching prop with plenty of guaranteed audience interaction!

"Visual, practical, and incredibly commercial! This prop is a people magnet! I already have a dozen ideas!"

- R. Paul Wilson

May contain either smooth or fuzzy textured peas.
