

SUPER SHOWDOWN BLUE by Murphy's Magic

Super Showdown

is a powerhouse routine created by the legendary Nick Trost!

If you've ever dreamed of performing a world-class gambling demonstration without difficult sleights, hours of knuckle-busting practice, or memorizing a stack.. then, this is your moment!!

Super Showdown takes the timeless Ten-Card Poker Deal plot and explodes it into a four-phase miracle machine... AND.. It's all self-working, all devastating, and all wrapped in a presentation that feels like mental warfare, poker mastery, and pure showmanship rolled into one.

And here's the best part:

Even if you're NOT into gambling presentations... we teach you how to frame this as a full-blown psychological routine that will leave your audiences STUNNED!

Think influence, persuasion, psychological reading, thought-projection all built on a rock-solid, self-working backbone.

IMAGINE your spectator

- Picks any card!
- Switches hole cards!
- Changes hands entirely!
- Reshuffles his/her decisions mid-way!
- ALL 100% their decision, every step of the way!

Yet somehow... incredibly... You still end up with the winning hand.

This is the moment they realize, they're not watching a trick, they're watching a masterclass in influence.

- Self-working but feels like expert card mastery!
- Fully guided instruction for BOTH gambling AND psychological presentations!

- Massive spectator involvement!
- Builds phase by phase into a powerhouse closer!
- A true showpiece suitable for close-up, parlor, or table-hopping!
- Includes special cards that work with any regular Bicycle deck!
- Includes detailed online instructions!

THE FOUR-PHASE EXPERIENCE THEY'LL NEVER FORGET!
