

Forever Flap by Nicholas Lawrence

This isn't the next "coolest" or most "fooling" gimmick to hit the market... It's something better-built for professionals who need reliability every single time.

Introducing **Forever Flap** cards - the first release in the Forever Series.

This is the next generation of flap cards.

No maintenance. No preparation.

Always ready to go.

What's Included?

- 1 x Blue to Red Flap
- 1 x Red to Blue Flap
- 1 x 23 Minute Video Instruction

Designed as the perfect companion to your color-changing deck routine, each set includes TWO handmade gimmicks-one RED, one BLUE.

Both are fully modular, allowing you to perform blue-to-red or red-to-blue transformations with ease.

2 Modes:

- Built-in tension system for an automatic, spring-loaded change
- Gravity-driven handling for a smooth, flick-of-the-wrist transformation

One of the standout features?

These gimmicks are only ONE card thick.

With an integrated tactical grip texture, you can go straight into deck examination immediately after the change-no palming, no ditching, no stress.

It not only helps conceal the gimmick but opens the door for additional moments in your routine.

This isn't your ordinary flap card...

It's a refined blend of old-school principles and modern design, giving you a prop you can actually depend on-no broken strings, no obvious seams, no constant fixes.

The seam is nearly invisible... and it stays that way!

They may not last forever-
...but it will absolutely feel like they do.
