

Linking Pins by Hernan Maccagno

Hernan Maccagno presents his 2-pin routine, combining different methods and creating a fascinating structure of miraculous and seemingly impossible hook-and-unhook effects.

At times the pins appear unreal, and at others, like solid metal.

Miracles, suspense, and high-powered magic-therefore IMPOSSIBLE!!!

And in the end, everything is reviewed, and everything is uncomfortably normal.

A miracle for every occasion, always in your pocket, waiting to shine.
