- **Paul Vigil**

"It's unbelievable. Going right into use! Immediately into my repertoire. This is a work of genius. The book is perfect in every way and allows for so many revelations, it's insane! It's just gorgeous. So well thought-out. You could do an hour show with this book alone! You could do multiple revelations, different people, and probably not do the same show twice for a month. I highly recommend it."

- **Dr. Jeremy Weiss**
