

11th Hour (Gilded Silver Standard Edition) - Pokerdeck

Produced by EmilySleights52, **11th Hour Silver** is a shiny deck of cards created for magicians and collectors! Because the cards are marked, there are 56 unique back designs within this deck! The backs and faces will also have silver foil!

Please note that the photographs used in this Kickstarter are just prototypes and the final product will be even better and shinier! The standard decks are not gilded.

- 300 German Black Core Paper
- Linen Air Cushion Finish
- Two-Way Back Design
- Custom-Standard Courts
- Elegant White Border
- Silver Foil on Backs and Faces
- Subtle Reveals on Jokers
- Custom Ace of Spades
- Outlined Values and Indices

The elegant tuck features a soft matte black paper with stunning silver foil.

This marking system allows you to fully know what card you are looking at without ever seeing its face. The system can be learned in just moments and will stick in your memory. While many assume 8 o'clock would be the value of 8, that is not the case. Unless one knows the secret, they'd never be able to tell what card they were looking at. And to those unfamiliar with marking systems, it is perfectly hidden by the idea of time passing by as indicated within different random times indicated on the back of each card!

A card is included in every deck that teaches the marking system.
