

## **Devil's Bandana V.3 - Precious Stones Collection by Lee Alex (Ruby Red)**

Lee Alex presents... **Devil's Bandana V.3 - "Precious Stones Collection"**

Designed by Lee Alex and inspired by the natural colors and clarity of precious gemstones. A choice of three stones to suit your personality:

**BLACK PEARL** speaks of quiet strength and hidden wisdom.

**RUBY** carries the heat of the heart - life, courage, desire.

**SAPPHIRE** brings balance and truth, steadying fire with reason.

Together, they form a harmony of experience, emotion, and understanding.

Three precious stones, three great forces: depth, passion, and clarity.

The **Devil's Bandana V.3** builds on the principles of the "Invisible Devil" to create a completely light-proof bandana, impervious to both natural and artificial backlighting.

The single NO-SNAG pocket remains entirely invisible, thanks to Lee Alex's unique construction from a single piece of silk satin. This method results in a bandana that is thinner, yet sturdier, with no added bulk or tell-tale seams.

Measuring a generous 20" x 20 inches (50 cm x 50 cm), The Devil's Bandana V.3 is a universal magic accessory, allowing the performer to vanish, produce, switch, or force objects using an ordinary, everyday-looking bandana.

The sophisticated performer will choose The **Devil's Bandana V.3 - Precious Stones Collection** with complete confidence, knowing it can be performed anywhere, without concern that backlighting will betray the secret within.

**Suitable for close-up, parlor, cabaret, street, and stage performances, or as a versatile accessory in any performer's repertoire.**
