

Butterfly Try-All V2 - Pokerdeck

Say hello to the **Butterfly Try-All V2 Playing Cards**, aka "The People's Champ"!

In 2025, we released the Butterfly Try-All Set in collaboration with Room One. A set of three identical-looking decks printed on different stocks, with one goal. To find out the preferences of card enthusiasts.

The voting had a clear winner: 300gsm Elite Stock.

We promised to print the second edition Try-Alls on the winning stock. Here it is!

It features a new "icy" colorway, which is our spin on standard blue decks. We made one significant change to the back design. We added a thin border.

The border visually separates the cards and creates a clearer packet definition in flourishes. Its effect is immediately apparent in fans and spreads.

We have covered the faces in a custom color scheme to match the back design and complete the deck's look. Spades and Clubs are very dark blue, and Hearts and Diamonds are light pink.

We've stripped down the court cards to three colors from the usual four. Spades and Clubs reflect the colors of this deck's back design, while Hearts and Diamonds are a throwback to the colors of the first edition Try-Alls.
