

The Excelsior Chop Cup by Viking Magic

EXCELCIOR CHOP CUP

: Viking's Mahogany **Excelsior Chop Cup**, exquisitely turned by the workers at Viking Mfg. along with a matching solid cup. Listed at a special introductory price.

Our Excelsior Chop Cups can be purchased as a set or individually. Each cup is hand-crafted and hand polished by George Robinson Jr. and each Chop Cup has his initials inside each cup.

You are supplied with instructions for various handlings of the Chop Cup along with the necessary balls. The Chop Cup is a wonderful prop that can perform wonderful miracles. If someone like Paul Daniels makes this a feature in his stage act, you know its a great prop.

EXCELCIOR SOLID CHOP CUP: The solid **Excelsior Chop Cup** is made to match our Chop Cup and can be used together or each cup can be used independently.

Our Excelsior Solid Chop Cup is a professional grade Chop Cup requiring sleight of hand to operate. The cups are made of solid Asian mahogany and are not hollow. The performer executes similar moves as with a standard Chop Cup by using simple finger-palm sleights. At the conclusion of the act, the cup is shown to be solid which makes the effect even more impossible.

Instructions and a set of balls are included.

Each cup is hand finished and polished. Incredibly beautiful to use or display in your collection. Limited production. Once these are gone, they are gone.

NOTE: Replacement Monkey Fist Chop Ball set may be purchased separately.
