

Stretch Deck by Kyle Purnell

Kyle Purnell returns with one of his most original and visual creations we've seen in a long time.

This is "**Stretch Deck**."

The effect is simple. You take an ordinary deck of cards and visibly stretch it. The deck really looks like it's stretching to twice its normal length! You then squeeze it back to its original shape. It really looks like magic!

You begin and end with a completely normal deck. The deviously designed, handmade gimmick can be brought in and out of play effortlessly.

While it looks like something built for social media, Kyle specifically engineered "**Stretch Deck**" for real-world performance. It is perfect for close-up settings, strolling, and makes for a powerful visual opener to any card set.

- Extremely easy to perform
- Fully examinable before and after
- No elastic or magnets
- You can use any standard-sized deck with any back design

In the instructions, Kyle takes you through everything you need to know, from getting set up to different handlings to actually performing "**Stretch Deck**."

A visually impossible effect that feels effortless, and that's not a stretch!

Add "**Stretch Deck**" to your repertoire today.
