

Hero Reveals by Chris Webb

A card is chosen then lost in the deck. You take out a court card and explain it has a secret identity.

With a shake it turns into a superhero then with another shake it reveals the chosen card in a unique way only to go back to its original state.

This is the perfect trick for all ages especially when you're at an adult performance but they have a few younger ones there...this is the perfect trick.

Full video instructions and comes with 4 custom designed printed hero cards and 2 other gaffs. Easy to do and can be done with any standard poker face design decks so you're not restricted by back designs.

Vol.1 has: Superman, Batman, Wolverine & Dr Strange which all reveal different cards.
