

IARVEL Watch Special Edition (Blue)

The **IARVEL WATCH Special Edition** is the next evolution of the groundbreaking magic prop, crafted through the ongoing collaboration between IARVEL Magic and Bluether Magic.

Building on the massive success of the original IARVEL Watch and its celebrated predecessor, the Infinity Watch V3, this Special Edition delivers everything magicians love about the classic model-plus exciting new enhancements.

Available in three premium, eye-catching colors (**luxurious Oyster Green, sleek Stealth Black, and vibrant Electric Blue**), it features a faster, **3x more stable** processor for even smoother, more reliable performance, and a super-luminous glow-in-the-dark display that lights up brilliantly in complete darkness. It's still the sophisticated wristwatch that lets you secretly control and manipulate the displayed time, but now with bolder style and next-level visibility for low-light or dramatic performances.

BASIC EFFECT:

You casually slip off your watch and hand it to a spectator for thorough examination. Satisfied it's just an ordinary high-end timepiece, they hand it back. You secretly set it to a time only you know. Holding the watch face down, you ask the spectator to cover it without looking. The magic unfolds as you guide them to recall a deeply personal time-perhaps a birthday, an anniversary, or a life-changing moment. Have them announce it aloud and focus silently on the exact hour and minute. Then, invite them to flip the watch over.

Imagine the look on their faces as they flip the watch to reveals precisely the time they were thinking of-crystal clear to the last minute. These are one of many unforgettable moments the IARVEL watch is capable of creating, and now you can do all this even in complete darkness.

KEY FEATURES:

- **LIGHTNING-FAST & ULTRA-STABLE PERFORMANCE:** The Special Edition features a brand-new processor that's faster than ever and 3x more stable than the original-ensuring instant, lag-free time changes and rock-solid reliability even in demanding routines.

- **UNMATCHED SPEED & PRECISION:** Still the fastest time-manipulation device available, reaching any desired time in just 0.6 seconds with flawless accuracy-hour and minute hands align precisely to the millisecond.
- **HYPERLINK BLUETOOTH - UNBREAKABLE CONNECTION:** Signal interruptions are history. If a brief glitch occurs, Hyperlink Bluetooth reconnects in a split second and instantly syncs the time for seamless, worry-free performances.
- **PREMIUM CAMOUFLAGE & DURABILITY:** Expertly crafted by professional watchmakers to look like a genuine luxury timepiece in your choice of Oyster Green, Stealth Black, or Electric Blue. Highest-level water resistance keeps it performing through any conditions.
- **EXTENDED BATTERY LIFE:** Powered by advanced IWW3 technology, enjoy over half a year of performances without a battery change-perfect for touring pros.
- **IMPRESSIVE 30-METER RANGE:** Control the watch via Bluetooth from up to 30 meters away using the IARVEL app on your phone.
- **SINGLE APP ECOSYSTEM:** The streamlined IARVEL app connects to multiple IARVEL Watches (and all other IARVEL products) simultaneously-no extra apps needed, keeping your phone discreet.
- **MULTIPLE CONTROL METHODS:** Customize your routines with versatile options to fit any style:
 - **VOICE CONTROL** - Speak the time aloud for instant hands movement.
 - **REMOTE CONTROL** (sold separately) - Discreet handheld option, ideal for avoiding phone use.
 - **ALBUM CONTROL** - Mr. Rashaun Chan's genius picture-based system: Audience chooses from innocent images that secretly command the watch.
 - **SWIPE CONTROL** - Intuitive dark-screen gestures in the app for silent, under-the-nose adjustments.
 - **DEVICE INTEGRATION** - Link with other IARVEL gear like the IARVEL PAD: Write a time on the pad, watch hands move instantly for epic combined effects.
 - **NFC CONTROL** - Use everyday-looking NFC objects (e.g., special cards) - tap to your phone, and the watch receives the command seamlessly.
- **SUPER-LUMINOUS GLOW-IN-THE-DARK DISPLAY (New!)** - Enhanced lume on hands, markers, and dial charges quickly and glows intensely for hours-perfect visibility in complete darkness, adding dramatic flair to

reveals and enabling mind-blowing low-light performances.
