

Flash by Chris Webb

Flash

is a super visual bill change in any currency that's easy to do. This new version is the ultimate project that was originally created back in 2010 comes with a receipt to bill gimmick made with a \$100 dollar bill (sorry its prop money!) so you are ready to go and can learn the handling straight away.

You also get a few receipts in different currencies so you can customize the gimmick to any bill or note (even polymer notes)

Full instructions on how to adapt your gimmick, extra routines and handlings. This is not a 1 off trick but a full project.

You will also have access to a huge library of receipts, kids money and monopoly money in different sizes to fit all currencies.

Sold out at the Blackpool Magic Convention 2026 and great a EDC you can use at a moments notice.

"Chris Webb's Flash is the most visual bill change ever. Super easy and super practical. Living in my wallet for years already and my favorite EDC. Highly recommended"

- **Alexander Kolle**

"Chris is bringing back one of the cleanest, most visual bill changes out there- the perfect example of great magic: simple method, killer execution. Already my go-to and bound to become a classic - you need Flash in your wallet"

- **Victor Sanz**

"Flash is the definition of Every Day Carry. Packs small Super visual and easy to do. What more could you want from a bill change!"

- **Dave Loosley**

"Flash is such a quick and visual change. It really is one of those 'wtf did I just watch???' Kind of moments! Be prepared for your audience to say, "WHAT???" Do that again!!!"

- **Ben Williams**
