

AF ESP Deck by Alexander McAleer

As the name implies, yes, this is another [BLEEPING] ESP deck. But this one is made by Alexander Marsh to solve problems he found in every other ESP deck.

When Alexander Marsh couldn't find an ESP deck that offered everything he needed, he created his own. The result was a powerful tool for modern mentalists.

And now, for the first time, Alex and Vanishing Inc. have combined forces to take everything great about the original and push it ever further.

Here's everything new with the updated "**AF ESP deck**":

New and improved plastic ESP Cards

The original version (and most ESP decks in general) are printed on paper stock that gets destroyed quickly. This new edition is made in a premium plastic stock that will last countless performances and stand up to the wear and tear of regular use.

New Carrying Envelope

Rather than a standard card box, the deck comes in a clean, gusset-style envelope that feels more appropriate for ESP cards and keeps everything organized.

Full Tutorial

You've got all new instructions from Alex. He's updated the original teaching, refined the handling, and added new routines. Here are the powerful routines taught by Alex.

Am's Matchup:

Alex's signature 5-for-5 matching routine that's pure genius.

AM's Tableless Matchup:

A standing ESP match routine where your participant makes all the decisions, and in the end, you show that you knew all along exactly what they would do.

Visa Cabaret Style:

A powerful free will routine where you predict the exact order in which the cards

are selected and which pockets they're placed in.

Jazz Gemini Twins:

A hard-hitting version of Gemini Twins, where two random cards are selected as target cards, and the participant can blindly find their matches.

And of course, everything that made the original "AF ESP deck" amazing is still here:

Marked ESP Cards

The vintage-inspired back design includes an easy-to-read marking system, allowing for quick identification during performance. The back of the cards also has a subtle one-way design.

A Bonus ESP Symbol

In addition to classic Zener symbols, the deck includes a triangle symbol as an alternative to wavy lines.

Different Size

These ESP cards are slightly longer and narrower than standard playing cards (2.4in x 3.9in / 62mm x 100mm), helping distinguish them from a regular deck.

Various Gaff Cards

You receive a variety of gaff cards (see below for full details) that expand the possibilities of your ESP routines.

"AF ESP Deck" Includes:

- 5 x Circle
- 5 x Plus
- 5 x Triangle
