

Triple Helix 2.0 by Snake & John Byng

The magician shows a blue Bicycle card case. He snaps his fingers and, as if by magic, a second case appears in his hand: this time red. He takes the red one and puts it in his pocket. Only the blue case remains in his hand. He snaps his fingers again and, incredibly, another red case appears!

At this point, he puts the blue case into his pocket, opens the red one, and removes a deck of red-backed cards, ready to perform his favorite routine.

- A surprising, practical effect that is always ready to go, ideal to carry with you at all times.
- Perfect as an opener to immediately grab the audience's attention and break the ice with instant visual impact!
