

Phantom Wallet by TCC Magic (Microfiber leather)

Phantom Wallet: Instant Card to Wallet without Palming.

The Edge Wallet and the Into Wallet have long been favorites among magicians. Today, Shadow Lin, the creator of both, returns with a fresh take on wallet magic, introducing a new structure and form: the Phantom Wallet.

Its signature strength is a fast, direct, no-palm card-to-wallet effect. With simple, natural handling, the spectator's signed card appears inside your wallet almost instantly.

It also includes other common functions, such as peek and switch, along with four routines that you can seamlessly adapt to your own presentation and script.

Designed with a minimalist aesthetic, the Phantom Wallet stays slim and streamlined. There are no bulky zippers or unnecessary compartments. It features two external slots, a gimmicked slot, and a smooth magnetic closure, making it easy to carry in any pocket or bag without added bulk.

The Phantom Wallet comes in microfiber leather delivers exceptional durability for regular performance use.

It is crafted with precise stitching and hand-aligned magnetic inlays, with tolerances controlled within 0.5 mm. This level of accuracy ensures the wallet performs its effects flawlessly.
