

Squeaky Wand

The magician hands a magic wand to a spectator asking him to lift it and hold it vertically. As soon as the spectator does, the wand will launch a funny and loud sound! The audience will have a blast

Each time the wand is moved, it will make a very funny sound that will make your audience laugh out loud!

- The wand is made with great care from rigid plastic.
- It is 16 cm (6,3") long and has a diameter of 2 cm (0,78"). It works without batteries!
- Perfect for an audience of children, it will also entertain an adult audience!
