

## MC Sandwich by Mickael Chatelain

An original method for presenting a classic card magic trick: performing a sandwich effect has never been easier!

Imagine what happens next: simply place two cards on the table, have the spectator freely choose one, then lose it in the deck. Slowly gather the two cards still on the table, make them equal, and fan them out again. A card has appeared between them—the spectator's card! The proof? Their signature!

A classic effect, you might say? But believe us, the method used will surprise you.

This method doesn't stop at a sandwich effect:

Learn how to make one or more cards disappear or appear. Furthermore, you'll also learn an ambitious three-card version.

### Key Features:

- No forcing, signed card.
- No glue, no thread, no flap.
- Instant reset.
- Nothing to make, the delivered materials do the work for you!
- A creation by Mickael Chatelain.
