

LINKHOLE by Mickael Chatelain

Take two cards out of your pocket (one with a blue back and one with a red back).

Your spectators notice that both cards have a hole in one corner! A hole bigger than a €2 coin!

Show the cards front and back, up close, very, very close indeed...Bring the two cards close together.

Immediately, the two cards lock together like links in a chain! Show them up close again... there's nothing to see! ABSOLUTELY nothing to see!

Invite a spectator to pull on this link of cards to verify that it is IMPOSSIBLE to separate them!

Take the two cards (still locked together) and blow on them... IMPOSSIBLE, the two cards are separated again as before, and they are INTACT!!!!

Remember these highlights points :

- Nothing to do!
- Truly INVISIBLE!
- The gimmick does all the work!
- The cards are truly enclosed! No optical illusions or anything else!
- Instant reset!
