

## Hot Rod - Crystal

The magician shows the audience a small rod set with six tiny gems of different colors on both sides. Then, a spectator is invited to make a series of choices that will ultimately lead to one freely selected color. With a simple magical gesture, the magician transforms all the stones, on both sides, into the very color chosen by the spectator.

Add a touch of elegance to your close-up magic!

- Easy to perform, yet highly impactful for any audience.
- Small enough to carry in your pocket and amaze spectators of all ages.
