

Holy Light by IARVEL MAGIC

"It's a romantic and sexy trick!" - Rocco Silano

Holy Light is not just a flashlight that looks like a magic wand. It has a unique design and has a heart-shaped light to make a classic sponge ball routine fun, innovative, simple, vivid, and powerful.

Use the heart light to make a heart appear on the magic wand. Make it blink like heart beats, then make two hearts appear from the audience and yourself. Make a heart magically transport from your hand into your spectator's hand by moving the heart light. For the finale, use the heart light to make a small heart super big!

Holy Light can be used in many different ways. You can even multiply and vanish the hearts on any playing cards, etc.... Endless possibilities.

This package comes with everything you need. You do not need to prepare or purchase any extras.
