

Flowers from Empty Bag

The magician shows the audience a **simple paper bag**, clearly empty, and invites a spectator to place their hand inside to confirm that there is nothing concealed.

Then the impossible happens.

The magician reaches into the bag and **produces a box containing two flowers**. The surprise is immediate. But it doesn't stop there: the hand goes back into the bag and **another box appears... and then another one**.

A powerful sequence of productions that leaves the audience **completely amazed**.

A classic stage effect, crafted with **excellent quality materials** and finished with great attention to detail—far superior to the many low-quality versions currently on the market.

Ideal for **all types of audiences**: children, families, stage shows, and entertainers.

- Paper bag size: **18 × 25 × 8 cm**.
- Box size: **18 × 8 × 8 cm**
- Outstanding visual impact at an **exceptional price**.
