

Deck Shooter by Hanson Chien

Deck Shooter is inspired from the detachable magazines (in firearms). Users can eject a deck of cards out of the leather case with a neat dashing move. In addition, its fine look functions as a deck protector. What's more, Deck Shooter can contain almost every deck size, no matter where the decks are made from --Taiwan, Europe or America.

Deck Shooter is made with quality PU leather.
Not easy to crease, 100% handmade.
