

Break Away Wand

An irresistible gag for anyone performing comedy magic, magical cabaret, or children's shows.

In fact, the moment this funny magic wand is handed to a spectator, it suddenly goes limp, creating a hilarious and surprising effect!

- An essential stage prop that no magician's case should be without.
- Perfect for getting laughs, engaging the audience, and making your routines even more lively.
- Once extended, the wand measures 36.5 cm in length and has a diameter of 1.2 cm. It also comes with a special gimmick that allows you, if you wish, to handle the wand just like a normal rigid wand. When the moment for the gag arrives, simply remove the gimmick and the wand is immediately ready to use.
