

Oil and Water (Bicycle)

A timeless classic of magic... reimagined for instant clarity.

With OIL & WATER, we don't just use red and black cards anymore — here, the cards actually represent oil and water.

And just like in real life... they simply won't mix.

You alternate oil and water, one after the other... Yet somehow, they always separate again — like invisible forces pushing them apart.

A routine that's visual, logical, and powerful, easy for kids to follow, but clever enough for adults to enjoy too.

Why OIL & WATER is a real tool for working magicians:

- Specially printed by USPCC with red Bicycle Rider Backs.
- Comes with a deluxe magic card holder for a pro look and feel.
- A routine that's clear, visual, and easy to follow, but hits hard (2 version taught : one automatic and one using sleight).
- Perfect for close-up or parlor shows, and adaptable to your style.
- Full tutorial in French and English included.

OIL & WATER brings a modern and meaningful presentation to a classic effect.

Designed for magicians who value clarity, logic, and impact — all in one simple routine.
