

## AmVicious by Victor Zatko

AmVicious is the most straightforward version of the ambitious card. A card is placed into the middle of the deck and immediately rises to the top. No moves, no misdirection. The moment the spectator or the magician pushes the card into the deck, it instantly appears on top!

AmVicious is incredibly easy to perform and truly gives the impression that you have superpowers. The effect is so direct and so clean that spectators will be left speechless.

You can repeat the effect as many times as you want, because it requires absolutely no setup.

What's included:
