

# The Clown's Nose by Jimmy Carlo and Mark Traversoni

## The Clown's Nose

is a charming trick where your helper saves the day when they magic up a new nose for the clown.

The task seems quite straightforward but mayhem breaks out when the wrong colour noses appear, first blue and then black.

All is not lost as third time lucky the Clown has his brand new red nose.

It is very easy to do and great fun to perform.

Add your own broken wand type gags (not supplied) to have even more fun during the routine.

Ideal for children's parties and events, the kids love it.
