

## Haripock by Tejinaya Magic

Here is a candy box. It's empty inside, with small holes on both sides. Insert a chocolate snack stick through the holes. Then, drop a gummy with a hole in it into the box from the top. Cast a spell and open the box... Lo and behold, the gummy is threaded right through the chocolate snack stick. You can then hand the chocolate snack stick with the gummy on it directly to a spectator.

You can also let them examine the box. It's incredibly easy to do!
