

Silk to Real Flower (Red) by Juan Pablo

SILK TO REAL FLOWER

will allow you to make a real flower appear in the model of your choice and at the exact moment you desire.

The effect consists of holding a silk ribbon in your hand, and instantly the silk transforms into a real flower that you can hand out for inspection or give as a gift to the audience.

It is very useful for magicians who perform musical routines as well as those who perform spoken routines. It is easy to perform and resets instantly.

SILK TO REAL FLOWER is available in two models: white flower and red flower.
