

Super Ace (Red) by Marco Markiewicz

Bring your Ace of Spades to life... like a real cartoon with **SUPER ACE!**

Imagine this: a card is freely selected by your spectator... and it turns out to be the Ace of Spades. You hold the card at your fingertips... and suddenly, the center spade visibly comes to life and starts moving right before the audience's eyes.

With **SUPER ACE**, Marco Markiewicz reveals his personal routine as visual as it is impossible.

A card is selected and signed by the spectator. You then add two additional cards and mix all three together before placing them face down on the table.

Next, you remove your Ace of Spades from the card box and explain that it will help you find the signed card...

And then, the impossible happens.

The center spade on the Ace visibly begins to move and slowly points to one of the three cards. You turn it over... it's the spectator's signed card.

But that's not all.

You can hand out the Ace of Spades for examination. The spectator will discover that the ink of the spade has genuinely moved on the card.

- Ultra visual
- Impossible effect
- Professional routine
- Gimmick + Gaff Card included
